## Business & life in Europe

- connecting East & West
- a creative diversity of cultures
- single currency, the Euro, in most of Europe
- costs of living & office space lower than you expect
- a market of 400 Million people, most of them comfortable with English

### **Paolo Sommariva**, founder of FL3XX

"We screened 10 major locations in Europe, and Hagenberg was not on our list. After we responded to a friend's invitation to visit Hagenberg, it quickly became our choice, hands down. In our start days we got excellent all-round support, and we hired bright developers in no time."

### **Richard Ebner**, founder of isiQiri

"Setting up R&D in Hagenberg while having strong ties to Silicon Valley is a perfect combination for us. With Bob Senior being a member of isiQiri's board we are happy to have experienced 'grey hair' plus a US view of the market."
